## DMS Pharmaceutical — Emphasizing Personal Service

**Bill Anderson, Executive Vice President,**  
reviews product knowledge with **Customer Service Representative Nancy Moore.**

**D**MS Pharmaceutical Group began with a mission of service. Founders Sam and Angie Lazich launched the company back in 1995. With their collective backgrounds in pharmaceuticals and information technology, the pair saw a need within public and private hospitals, surgical centers and long-term care facilities.

Emphasizing personal service, they grew that business to over 140 clients, including government, state and local government contracts. Today, DMS

Pharmaceutical Group sells more than 20,000 wholesale brand and generic name drugs as well as medical supplies generating over 100 million dollars in revenue each year.

The company takes pride in its personal relationships with its customers. Employees have extensive knowledge of every product. Pharmaceutical needs can be filled through EDI or web, the DMS Customer Service Staff is always available to answer questions and take orders. The company is equipped to fulfill last minute orders and research more cost-effective pharmaceutical solutions.

DMS recently formed a joint venture named Veterans Health, a full-service wholesaler dedicated to serving the needs of the nation's veterans. Headed by Lieutenant General (Ret.) E. Ratcliffe Anderson, Jr., M.D. — Former Air Force Surgeon General, Veterans Health, brings experience in delivery of worldwide medical services during both war time and peacetime.

The company is looking towards the

future with several expansion opportunities including repackaging medication and manufacture of generic drugs. The eventual goal is to open plants and satellite operations around the Great Lakes region.

The commitment to honoring our nation's servicemen and women as well as our veterans doesn't end with the business side of the operation. DMS is actively involved in the Fisher House Foundation, an organization that provides temporary housing for the families of wounded servicemen and women near military and VA Hospitals. Sam Lazich and DMS Executive Vice President Bill Anderson serve as co-chairs of Fisher Houses for Illinois. So far, DMS has raised over 3 million dollars and that money will be matched by the national Fisher House Foundation. Groundbreaking for a new 21-suite facility on the grounds of the Hines VA hospital is scheduled for fall of 2008.
